

NETWORK TECHNICIAN

About Rapid I.T. Solutions

At Rapid I.T. Solutions, we provide a personal approach to IT and specialise in providing a total solution from sales and installation to service, repairs and upgrades. As we have over 15 years' industry experience, we can deliver a range of support options for convenient and prompt IT support such as onsite and remote support services including workshop repairs.

We offer a proactive approach to information technology to ensure our clients receive the latest IT solutions. We provide prompt and reliable service and pride ourselves on our attention to detail.

The opportunity

We are seeking expressions of interest from an intelligent, bright and enthusiastic Network Technician to join our team for commencement in the New Year. This position will involve some travelling to and from client premises, whilst being based out of the offices of our parent company based at Aitkenvale and Kirwan.

What You'll Bring

The successful applicant will have a minimum 5 years Network Administration experience with particular focus on all Microsoft Server Operating Systems and Exchange Servers. Current projects would include server upgrades from existing legacy SBS Server 2008/2011 / Server 2008 to Server 2012/16 with Exchange 2016.

We are looking for a team player who displays initiative but can also take direction. Strong attention to detail and exceptional communication skills are essential, including responding to requests from clients both remotely and onsite.

You will be required to present professionally as our client base is diverse from the legal and medical to veterinary and manufacturing fields.

You will be required to assist in:

- supporting and working with existing technical staff;
- building and configuring LAN/WAN infrastructure;
- installing, configuring and supporting Server 2012/2016;
- installing, configuring and maintaining Exchange 2013/2016;
- upgrading legacy Server 2008/SBS 2011 operating systems;
- installing, upgrading and supporting HyperV and Vmware virtual environments;
- installation, configuration, upgrades and repairs of desktop and laptops.

Relevant tertiary qualifications would be advantageous but not essential.

All expressions of interest will be treated in the strictest confidence.

Please forward your written application and resume by 30 November 2017 to:
